## Marine Electrician

Armstrong Marine USA designs and builds welded aluminum boats and barges. High performance designs and quality workmanship define the Armstrong brand that was developed in the Pacific Northwest more than two decades ago. Armstrong vessels can now be found in service around the world, meeting the demands of the commercial marine industry and private clients.

We recently joined the Renaissance Marine Group family of brands, which includes Duckworth, Weldcraft, Northwest Boats, and KingFisher Boats. As a result, we are growing in the manufacturing industry, and are looking to add to our team of talented employees.

The Marine Electrician installs, maintains, and repairs electrical systems and equipment. This position reports to the Plant Manager.

**Essential Duties and Responsibilities** include the following. Other duties may be assigned.

- Perform installation, maintenance, repair and replacement of marine electrical (AC/DC) and electronic systems for powerboats.
- Assemble, install, test and maintain electrical or electronic wiring, equipment, appliances, apparatus, or fixtures using hand tools or power tools.
- Troubleshoot electrical equipment and circuits using appropriate test equipment; perform required maintenance, repairs or replacement.
- Communicate with electrical system manufacturers.
- Troubleshoot problems for customers, provide recommendations for problem resolution; provide estimates to customer for repair, replacement, and installation according to problem diagnosis and repair/replacement recommendation.

### Requirements

- High School Diploma or graduation from certified technical school.
- 2 – 3 years marine electrical experience
- Must have the ability to repetitively lift, pull and push 50+ pounds, reach above head height, stand, walk, kneel, bend and reach.
- Must have knowledge of electrical systems and required maintenance and repair needs.
- Must have knowledge of the principles, techniques and practices involved in the installation, maintenance, repair and alteration of marine electrical and electro-mechanical systems.
- Must be able to read and understand blueprints and schematics, ability to recognize problems through troubleshooting and ability to resolve these issues.

### Minimum Qualifications

- Must be 18 years of age and eligible to work in the United States.
- ABYC Marine Electrical certification *preferred*.

### Offer Details

- Full-time hourly position; compensation DOE.
- Full benefits package offered, including but not limited to: medical and life insurance, dental insurance, vision insurance, 401(k) retirement plan with matching employer contributions, paid time off, and paid holidays.
- Armstrong Marine USA, Inc. is an equal opportunity employer. All applicants will be considered for employment without attention to race, color, religion, sex, sexual orientation, gender identity, national origin, veteran or disability status.
